Improved Employee Engagement

Improve Engagement

Easy-to-use mobile app allows all employees to participate in creating & maintaining a safe, productive culture.

Ensure Compliance

Complete your OSHA 301, 300, 300A, Worker's Compensation & other regulatory reports automatically.

Communicate Consistently

Real-time alerts & notifications allow supervisors to respond faster and more effectively.

Increase Accountability

Assign witness reports, investigations and tasks. Improve accountability & ensure resolutions are completed.

Optimize Results

Employee reports identify conditions requiring action, task monitoring ensures actions are completed on a timely basis, & dashboards confirm the impact of the actions.

Big Picture Focus

Monitor your overall safety program including leading indicators and operating behavior trends, for a safer, more productive workspace.

Save Time

Automated data collection & real-time report creation eliminates paper & administrative overhead.

World Class Support

Sospes is your partner. Our customer success managers are there every step of the way from presale planning through implementation & training, and on-going support after go-live.

Powerful EHS Management Software That Works for Your Organization

Safety Management

Workplace Safety Management at Your Fingertips

Workplace safety management software paired with an easy mobile app allows you to manage injuries, environmental releases, motor-vehicle accidents, property damage, near-misses and safety observations from any mobile device. Even if you're offline!

Mobile Inspections

Paperless Means Faster, Easier & More Accurate

Use your current forms or select from the Sospes library and begin completing inspections, DVIRs, job briefings, JHAs, quality checklists and more from any phone, tablet or computer. Sospes' users can create their own forms from our easy forms-builder and intuitive widgets library. All forms can be scheduled with reminder alerts making it easy to keep track of deadlines.

Certification Management

Accessibility and Automation

Reduce the administrative workload of tracking employee certifications and credentials by staying up to date with automated alerts and notifications and accessing records in real-time from any mobile device.

Real-Time Data Insights

Unlock the Power of Data Driven Improvement

Accurately visualize safety and operational metrics with dashboards generated in real-time from safety incidents and safety observations. Monitor leading indicators using the most sophisticated analytics possible!
